RE: **Lead Agency Coordination Response**

Project: Lands of Aranson

Town: New Windsor, County: Orange

We have reviewed the SEQR lead agency coordination request for the above referenced project, which our office received on 3-23-04. Based on our review of the circulated documents, and any additional information that we may have requested, DEC has no project-specific permit jurisdiction for this action. Consequently, Department is not an involved agency for this proposal and has no objection to your board/agency serving as lead agency.

Additional Comments

In addition to the comments noted above, please be advised of the those issues indicated below by a checked box:

☒ **Stormwater Management:** Please note that stormwater discharges that result from construction projects involving the disturbance of 1 or more acres of land now require coverage under the Departments' "State Pollutant Discharge Elimination System (SPDES) General Permit for Stormwater Discharges from Construction Activities". If the sponsor believes their project would be covered under this SPDES General Permit and does not require any other DEC permits, they may apply for coverage by filing a "Notice of Intent" form with DEC, Division of Water, 625 Broadway, Albany NY 12233-3505, (form and permit available from this office or DEC Website at www.dec.state.ny.us/website/dow/mainpag.htm).

☐ **Threatened & Endangered Species:** According to Department records, the following state-listed threatened or endangered species has(have) been recorded within or near the project site:

Species: _____ NYS Status: _____

Species: _____ NYS Status: _____

The potential impacts of the proposed project on this(these) species may require evaluation during the review of the project pursuant to SEQR. For further guidance on this matter, the project sponsor may contact Mr. Steven Joule in the DEC Division of Fish and Wildlife at (845) 256-3089 concerning animal species, and Mr. Jeffrey Wiegert in the DEC Division of Lands and Forests at (845) 256-3111 concerning plant species.

☐ **Other:**

SEQR Lead Agency Response: Project: Aranson Minor
